Paraméterek

Megnevezés	Érték
Gép Teljesítmény	75-80 HP
Motor Teljesítmény	50-60 KW

Leírás

The Mandano 1000 is a compact and efficient sprayer equipped with a 1000-liter tank, designed for cost-effective crop protection on medium to large fields. Available in several boom sizes.

12 m version
Fitted with 24 nozzles, requires 55–65 HP (41–49 kW). Dimensions: 215 × 305 × 220 cm, weight 500 kg. Lightweight and stable, ideal for smaller plots.

14 m version
Comes with 28 nozzles, same power requirement. Dimensions: 215 × 305 × 220 cm, weight 505 kg. Wider boom allows faster coverage on medium-sized fields.

15 m version
Equipped with 30 nozzles, requires 55–65 HP. Dimensions: 215 × 305 × 250 cm, weight 515 kg. The widest boom in the range, perfect for large fields and maximum efficiency.

All versions of the Mandano 1000 feature a robust frame, durable polyethylene tank, and high-performance pump system, ensuring precise and uniform spraying. With easy maintenance and low overall weight, it is a flexible and cost-effective choice for professional farmers.
